

PALMETTO SPACE CORPORATION - WEST COLUMBIA SC ROCKET TECHNICIAN - ASSISTANT

We're building a rocket to reach space. We need a person able to learn and assist in all areas of building and launching liquid fuel rockets. You'll work directly with the chief designer.

You must have some mechanical and electrical aptitude, and the ability to:

- Distinguish wire colors
- Use common hand tools, such as: Screwdriver, pliers, wrenches, measuring tapes, etc.
- Use shop power tools, such as drill press, power hacksaw, etc.
- Wear common shop PPE including that for handling cryogenic liquids.
- Lift 50 lbs.

Familiarity with *Rocket Propulsion Elements* is a plus. Passion about rockets is a MUST!

As with firearms, strict attention to the rules is an absolute necessity. No slackness is tolerated!

Examples of useful skills or experience we would like to know about would include:

- Self study in things that interest you
- Hobby, School or Military experience with rockets, aviation, drones or electronics
- Things that show Mechanical or Electrical aptitude
- Use of hand tools and shop tools like lathe and mill operation (CNC and manual)
- Electronic design and assembly: Soldering, Amateur radio, microprocessors
- Software: C++, CAD, Solidworks, MATLAB etc.

We're a small shop. You'll have the opportunity to learn and do everything involved with rockets. If you like meeting challenges, you're likely right for us!

Full time salaried position, starting at \$14,000 to \$35,00 per year. Part time, \$15/hour.

Full time includes paid vacation (2 weeks after 1 year).

Flexible work schedules and time off when needed.

Must be local resident, or willing to move.

Starting salary, commensurate with value based on relevant experience and abilities, including the desire and ability to learn!

Veterans most welcome!
